DEEP ULTRA-MOISTURIZING  
TREATMENT

SOFT AND REJUVENATED FEET

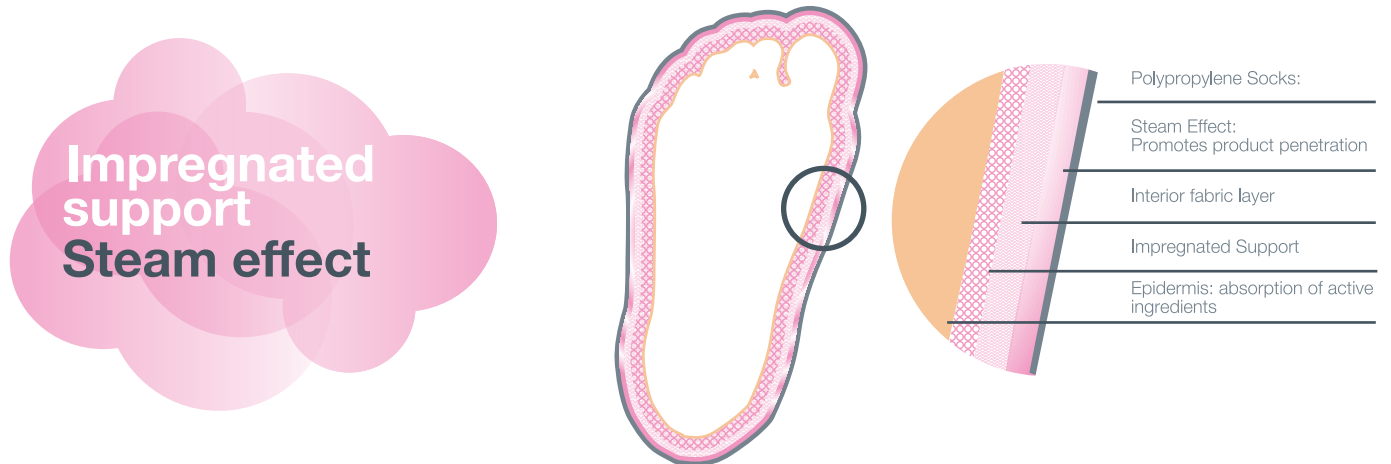

novasilk feet is an ultra-moisturising cellular renewal treatment that helps rejuvenate and recover the flexibility and softness of the skin on feet which are aged, dry and rough.

Its innovative presentation, as a mask, makes it easy and problem-free to apply. It facilitates rapid, deep penetration of its active ingredients-essences which will nourish, moisturise and protect your skin.

Its formula, enriched with urea, olive oil, aloe vera and antioxidants, is highly recommended for combating dryness, scaling and roughness on your feet.

## Discover the latest in caring for your feet

In a single use, your skin will become toned, moisturized, luminous and with a greatly improved texture.

### Application Protocol

1. Wash feet in water using a pH neutral soap
2. Dry both feet well
3. Apply the ultra-moisturising treatment
4. Allow to act for 20-30 minutes
5. Remove the treatment and finish with a massage until the active ingredients are completely absorbed
